

Thank you from SAMA and the editors

The SAMJ reviewers

SAMA and the editors of SAMJ would like to thank all who participated in the peer review process during 2019. We are grateful for the expertise, insight and thoughtful critiques shared with our authors through the review process, and without which maintaining the high standard of our journal would be impossible.

We apologise if any individual reviewer has inadvertently been excluded, and to those reviewers who were recruited after this issue was published.
