South African Medical Journal

FEBRUARY 2022  
VOL. 112 NO. 2

---

## CME

Cochlear implantation in South Africa (part 2)

---

## EDITORIAL

COVID-19 wave 4 in the Western Cape:  
Fewer hospitalisations, but new challenges for  
a depleted workforce

---

## IN PRACTICE

Development of active tuberculosis in patients treated  
with biological disease-modifying antirheumatic drugs

---

## RESEARCH

Guiding equitable prioritisation of COVID-19 vaccine  
distribution and strategic deployment in South Africa  
to enhance effectiveness and access to vulnerable  
communities, and prevent waste

Recency of HIV infection, antiretroviral therapy use and  
viral loads among symptomatic sexually transmitted  
infection service attendees in South Africa

Blood culture contamination in the departments of  
paediatrics and child health at two tertiary training  
hospitals in central South Africa

Tenofovir alafenamide: An initial experience at  
Groote Schuur Hospital, South Africa
