

CPD questionnaires must be completed online via www.cpdjournals.co.za
After submission you can check the answers and print your certificate.

1. True (A) or false (B):
Lord Nuffield was born Arnold Austin.
2. True (A) or false (B):
Lord Nuffield started his career as a clock-maker.
3. True (A) or false (B):
The Oxford Nuffield Medical Fellowship was established by Lord Nuffield.
4. True (A) or false (B):
No woman has ever been awarded a Nuffield Medical Fellowship.
5. True (A) or false (B):
Posterior reversible encephalopathy syndrome (PRES) was first described in 1996.
6. True (A) or false (B):
PRES is a radiologico-clinical entity of vasogenic cerebral oedema in the parietal and occipital white matter regions.
7. True (A) or false (B):
PRES presents with neurological symptoms, e.g. headache, altered mental state, visual disturbances and seizures.
8. True (A) or false (B):
Hypertension is rarely seen in PRES.
9. True (A) or false (B):
There is a general consensus that the larger a hospital (>1 500 beds), the more efficient and effective it is.
10. True (A) or false (B):
Smaller and more specialised hospitals consisting of 200 - 300 beds allow for a narrower and more focused scope of activities (economies of scope).
11. True (A) or false (B):
Kilimanjaro is part of a range of mountains of sedimentary origin.
12. True (A) or false (B):
Corneal endothelium regulates corneal hydration by various active transport mechanisms.
13. True (A) or false (B):
Corneal endothelial oxygen supply is predominantly via the optic artery.
14. True (A) or false (B):
Fast ascent can cause acute mountain sickness and high-altitude cerebral or pulmonary oedema, symptoms of which can mask coexistent corneal oedema.
15. True (A) or false (B):
Of the blood cell lines, human immunodeficiency virus (HIV) is associated only with neutropenia.
16. True (A) or false (B):
Anaemia occurs in up to 70% of patients with HIV/AIDS.
17. True (A) or false (B):
In HIV/AIDS the incidence and severity of cytopenias correlate directly with the degree of immunosuppression.
18. True (A) or false (B):
A study demonstrated that antiretroviral treatment reduces the need for and the cost of blood and blood product transfusions in HIV infection.
19. True (A) or false (B):
The Indian people who came to Natal originated in regions in the Indian subcontinent where there was no malaria.
20. True (A) or false (B):
Thalassaemia is the most common single-gene disorder found in the Indian descendents in Natal.

INSTRUCTIONS

1. Read the journal. All the answers will be found there.
2. Go to www.cpdjournals.co.za to answer the questions.
