

CPD questionnaires must be completed online via [www.cpdjournals.co.za](http://www.cpdjournals.co.za)  
After submission you can check the answers and print your certificate.

1. True (A) or false (B) – click on the right answer.  
**Of women with early breast cancer who receive chemotherapy, 70 - 80% do not benefit from the treatment.**
2. True (A) or false (B) – click on the right answer.  
**Since there is clear evidence that genetic profiling of breast cancer dramatically improves patient survival, it should be applied in all cases.**
3. True (A) or false (B) – click on the right answer.  
**Necrotising enterocolitis (NEC) is a low-grade chronic condition that occurs only in the elderly.**
4. True (A) or false (B) – click on the right answer.  
**NEC carries a high mortality and morbidity in affected infants.**
5. True (A) or false (B) – click on the right answer.  
**The aetiology of NEC is probably multifactorial, including prematurity and infection.**
6. True (A) or false (B) – click on the right answer.  
**Formula milk is associated with a reduced risk in NEC compared with donor milk.**
7. True (A) or false (B) – click on the right answer.  
**The risks of transmission of TB in prisons are increased because of overcrowding.**
8. True (A) or false (B) – click on the right answer.  
**In sub-Saharan Africa, the TB burden is exacerbated by the high prevalence of HIV infection.**
9. True (A) or false (B) – click on the right answer.  
**South Africa has the fourth-highest global incarceration rate.**
10. True (A) or false (B) – click on the right answer.  
**Awaiting-sentencing and awaiting-trial prisoners are always provided with individual prison rooms.**
11. True (A) or false (B) – click on the right answer.  
**South African prisons do not have a tuberculosis (TB) control programme.**
12. True (A) or false (B) – click on the right answer.  
**The following is attributed to Dostoevsky: 'A society should be judged not by how it treats its outstanding citizens but by how it treats its criminals.'**
13. True (A) or false (B) – click on the right answer.  
**Conditions under which awaiting-trial South African prisoners are confined are above national and international standards.**
14. True (A) or false (B) – click on the right answer.  
**Sexual impropriety may be categorised as behaviour, gestures or expressions that are sexually suggestive, seductive or disrespectful of a patient's privacy or sexually demeaning to a patient.**
15. True (A) or false (B) – click on the right answer.  
**Sexual violation can be categorised as physical sexual contact between a doctor and a patient, whether or not it was consensual and/or initiated by the patient.**
16. True (A) or false (B) – click on the right answer.  
**Another example of a sexual violation is exchange of prescriptions or other professional services for sexual favours.**
17. True (A) or false (B) – click on the right answer.  
**Patients never falsely accuse doctors of sexual impropriety.**
18. True (A) or false (B) – click on the right answer.  
**The main difference between an intimate examination and its potential to be labelled a crime is the practitioner's intention that the process is not meant to be sexual or sinister.**
19. True (A) or false (B) – click on the right answer.  
**Chaperones primarily protect the patient but also act as a risk management strategy for practitioners.**
20. True (A) or false (B) – click on the right answer.  
**It would be prudent to ask patients if they would like to have a chaperone present so that any objections can be timeously voiced.**

## INSTRUCTIONS

1. Read the journal. All the answers will be found there.
2. Go to [www.cpdjournals.co.za](http://www.cpdjournals.co.za) to answer the questions.
